

BioZone[®] Air Purifier IceZone-X (IZ-X) Series

Cleaner Air Healthier Life

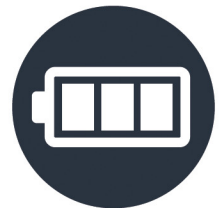

Inhibits the growth of mould,
slime & bacteria

Operates 24/7

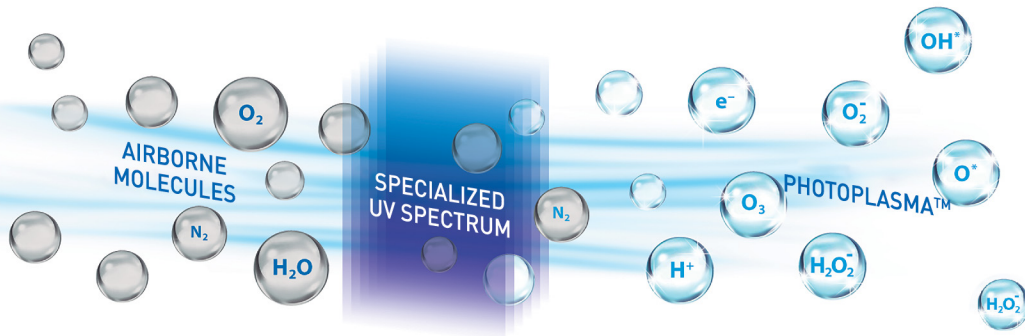

Reduces manual labour
and down time

Extends lifespan of
ice machines

BioZone® Air Purification Technology: PhotoPlasma™

PhotoPlasma™ is generated by airborne molecules such as oxygen and water vapour under the exposure of the specialized UV spectrum.

Applications

Ice Machine Cuber Mounted on Beverage Dispenser

Ice and Water Dispenser

Ice Machine Cuber Mounted on Ice Bin

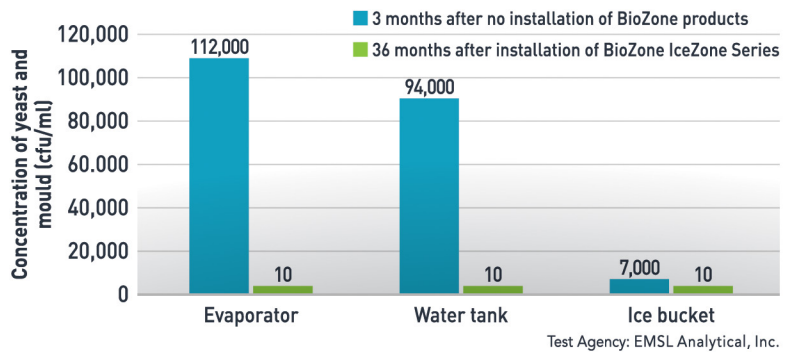

Product Installation

To determine the best location for your ice machine, start by looking for areas of mould growth and choose a position for IceZone® X that will provide maximum treatment to that area.

Case Study

A large US chain of membership-based clubs highly concerned about the bacteria levels in their ice machines. The test results showed that the concentration of bacteria in the ice machine maintained at extremely low level after the installation of BioZone device.

Nominal Specifications

Model	IZ-X-30
Size (mm):	304(L) x 108(W) x 53(H)
Weight (g):	590
Power Input:	120-240VAC, 50-60Hz
Power Consumption (W):	<20
Lamp Life:	1 year

Specification and design are subject to change without notice.
